

IDEAL AP60 Pro

The professional air purifier for pure indoor air – for room sizes of up to 60 m²*. Novel 360° multi layer filter system with long life HEPA filter technology and highest amount of specialized active carbon.

360° filter (HEPA + active carbon)

Fine mesh prefilter

High performance turbo mode

Low energy consumption

Ultra quiet operation

Night mode

Remote control

Superior sensors for automatic mode

Convenient timer (start & stop)

Recommended for allergy sufferers

Recommended against chemicals & smells

Recommended against PM2.5 particles

Technical Details

Power supply	220-240V, 50/60 Hz
Stand By (Watts)	1.2
Fan speed levels	5 levels
Power consumption (Watts)	5 / 7 / 10 / 19 / 85
Noise levels (dB)	19 / 27 / 33 / 42 / 55
Air throughput (m³/h)	90/160/220/330/660
Dimensions (H x W x D)	668 x 468 x 275 mm
Weight (kg)	15

* With a room height of 2.50m.

Product description

The AP60 Pro is a professional air purifier with a high performance 360° multi layer filter. Filters pollutants such as fine dusts (PM10, PM2.5, PM0.3, PM0.1), pollen and acarid allergens, pathogens such as bacteria and mould spores, cigarette smoke, exhaust fumes, chemical vapours (Formaldehyde, Toluol, n-Butane, VOC,...) and odours from the indoor air. High-quality control panel provides function modes such as Auto/manual/turbo. In auto mode, AP60 Pro continually monitors the air quality with intelligent sensor technology (sensors for fine dust, gas, odours) and automatically controls the power. In turbo mode AP60 purifies the indoor air in a short period of time. In addition to the automatic and turbo adjustment, the fan speed can be manually adjusted at 3 levels and furthermore to the separate superquite night mode. Key timer can be preset to operate whether in „start timer“ mode, or in „stop timer“ mode (1,2,4,8 hours selectable). Child-proof lock function. The current operational state is displayed at any time. AP60 automatically informs you, when to change the 360° Filter, by showing a red „F“ on top of the device. On an average, the 360° filter has to be changed after 12 months, depending on the intensity of the usage.

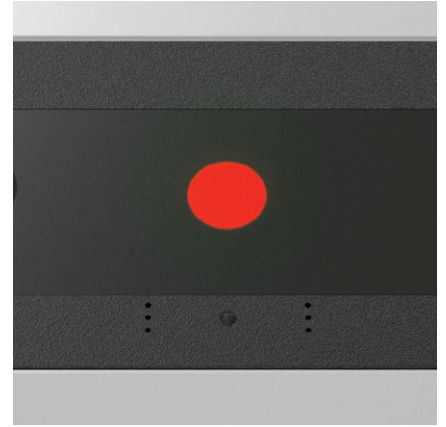

HIGH-QUALITY CONTROL PANEL

Control in an intuitive and comfortable way. Functions: on/off, automatic/manual/turbo, timer, night mode

COLOUR CODES INDICATE THE AIR QUALITY

The current quality of the indoor air is indicated by colour-coded 3-level RGB LED. It is also suitable as dimmed ambient or night light.

SENSOR SYSTEM

Monitors the air quality with a fine dust sensor, gas and odour sensor - for perfect indoor air in automatic mode. Enabling AP60 Pro to ensure perfect indoor air quality in auto mode.

360° MULTI LAYER FILTER

The high performance 360° filter consists of a fine mesh prefilter, true HEPA filter and Active Carbon filter. Equipped with RFID intelligence for a comfortable filterchange

REMOTE CONTROL

Comfort functions also available with the remote control such as: start timer / stop timer, child lock, night mode.

SILENT PERFORMANCE

The powerful „made in Germany“ Motor & Fan combination is designed for continuous operation. The most quiet air purifier in the market. Feel the power of the turbo mode as well.
